By Wislawa Szymborska

The commonplace miracle:
that so many common miracles take place.

Tacoma Pierce County Coalition to End Homelessness

<https://pchomeless.org/> - info@pchomeless.org

An ordinary miracle:
Invisible dogs barking
in the dead of night.

One of many miracles:
a small and airy cloud
is able to upstage the massive moon.

Several miracles in one:
an alder tree reflected in the water,
And is reversed from left to right
and grows from crown to root
and never hits bottom,
though the water isn't deep.

A run-of-the-mill miracle:
winds mild to moderate
turning gusty in storms.

A miracle in the first place:
cows will be cows.

Next but not least:
just this cherry orchard
from just this cherry pit.
A miracle minus top hat and tails:
fluttering white doves.

A miracle, (for what else can you call it):
today the sun rose at three-fourteen a.m.
and will set tonight at one past eight.

A miracle, that's lost on us:
the hand actually has fewer than six fingers,
but still, it's got more than four.

A miracle, just take a look around:
the inescapable earth.

An extra miracle, extra and ordinary:
the unthinkable
can be thought

00:34:31 - Courtney Love: - LIHI has one of the worst reputations among lived experience, across the region
00:34:33 - Theresa Power-Drutis: - Just a thought: we could list council meetings and other "open to the public" meetings throughout the county as warming and cooling centers. Of course with full disclosure that elected officials and others would be speaking throughout the meeting. Maybe that would amplify the voices of unhoused people.

- 01:51:13 - Dana Peregrine: - - With hearing loss, zoom is preferred. Consider other disabilities. Hybrid meetings are the worst with hearing loss.
- - 16 to 20% couldn't come in person. Would hate to say yes to something that eliminates 16 to 20 people.
 - - Owl cameras work well with hybrid meetings. Two or three especially.
 - - Maintain online only meetings and add a complimentary, optional in-person meeting. Don't want our primary work to have barriers
 - - Virtually is easier... especially as plates get full
 - - Provide opportunity to get together occasionally
 - - Have been able to participate more with zoom meetings... if at home and don't feel well can participate for example
 - - In-person does provide better option to talk directly to another person, to meet and chat
 - - Far more participation and exchange of knowledge with zoom. Occasional times to get together for support and to network a little differently

Like the option to jump in and out as need, to take care of other challenges and still attend.

The convenience of the Zoom meeting can't be overstated.

Concern that in-person meetings might limit who can participate.

Always like to connect with Coalition folks in person, but concerned about the additional strain on organizers and hosts.

Quarterly - separate from Friday meeting, with other break outs and activities?

Not a morning person - great to not have to be fully ready for the day.

Heard that pre-COVID, in-person meetings were more diverse. It would be nice to recapture that. It would also be great to have more participation from people who are homeless.

Running and attending hybrid meetings seems like a lot to manage. Predict that the same folks who regularly attend Thursday socializing opportunity would attend in-person and the rest would be on Zoom.

Tacoma Pierce County Coalition to End Homelessness

<https://pchomeless.org/> - info@pchomeless.org

There is real value to in-person interactions.

If in-person, the location would be very important. Might lose attendees from outside the Tacoma area.

If we do meet in person, not doing it on Fridays would be great.

Functional hybrid meetings require good tech support.

01:52:57 - Rian Booker: - Group 5:

- - Zoom allows for monitoring or passive participation.
- - Distance and travel time might preclude some participants.
- - Once a quarter may be better to make it more of an event, rather than a commodity.
- - In-person meeting similar to monthly gathering, just scripted.
- - We may lose a lot of side conversation and info in person that's included in Zoom chat.
- - Hybrid would be necessary. In person only would may participation too hard on too many people.
