Kerri - I recommend that unhoused neighbors use their general mail address or a service provider address - it's also an excellent opportunity to register people to vote, which is necessary to sign the initiative (but not to send a letter).

This link directs letters to the council members that each person can vote for - so the 2 at-large positions and their district, which is why the form demands a residential address - to know who to send the letter to. General mail addresses still work, but may not direct the letter to the council member representing the area they usually sleep in.
